

Helpful Tips for CPAs and Payroll Providers:

You can use the same User ID when filing for multiple businesses on SCBOS. It is easier to have one ID but if you are making payments from different checking accounts or credit cards, you need to pay careful attention when making payments.

You are not required any longer to add a business to SCBOS when completing any transaction.

It is recommended that you do not checkout more than 10 filings a time from the shopping cart.

SCBOS is easy to use - but you must follow the on-screen instructions in order to complete your filing. Also, check our Frequently Asked Questions (FAQs) and the on-screen Help.

We have Checklists that guide you through the filings. Prepare ahead of time

Once you start using SCBOS, you'll discover the benefits of registering, filing and paying online. We want to hear from you. If you have suggestions, please let us know by writing an e-mail to the SCBOS Helpdesk at scboshelp@scbos.sc.gov.
